## BOOKS HOW TO GROW PLANTS FROM SEEDS, CUTTINGS, LAYERS, AND BUDS

### SEEDING AND PLANTING -

The Nurseryman and Forester will find this book of great value to him in growing trees from seeds. By Prof. James W. Toumey. Yale University. Postpaid \$4.25.

### THE NURSERY MANUAL -

For over thirty years a guide on the propagation of plants by means of seeds, layers, cuttings, buds, grafts and otherwise. By Pfof. L. H. Bailey. Postpaid \$2.50.

### PLANT PROPAGATION, GREENHOUSE AND NURSERY PROPAGATION -

A practical book on the propagation of plants. It's illustrated by numerous drawings and photos taken in nurseries. By M. G. Kains Postpaid \$2.50.

### NEW EDITION OF BAILEY'S CYCLOPEDIA OF HORTICULTURE -

This Cyclopaedia meets every need of the commercial and professional horticulturist, and in the desire to bring this famous work within the means of all lovers of horticulture, the publishers have brought out this three volume edition at about half the price of the former set. This three volume set contains all the information for which the former six-volume set was so justly famous, being printed from the same plates on special paper which though not bulky is remarkably tough and durable. It makes a compact yet thorough presentation of the kinds, characteristics, and methods of cultivation of the species of plants growing in the regions of the United States and Canada for ornament, for fancy, for fruits, and for vegetables. Formerly in six volumes at \$40.00, now in three (f. c. b. Germantown) at \$25.00.

### INSECTS AND THEIR CONTROL -

This book covers the field of Insects and Spraying in a thorough manner, also features cuts of various Scale and Insects with method of control. By Andrew Wilson. Postpaid \$2.50.
